

# Awful Shade of Blue

David Potts 2012

Key of G

Well I did all right on Friday night the bartender helped me thru

But I woke up on Saturday and awful shade of blue

I think I might have said some things and burned a bridge or two

But this fools crown doesn't look much like gold, it's an awful shade of blue

Blue is the color of lonely like the ocean far from the shore

It's also the color of my baby's eyes...Lord I hope she walks thru that door

And if I had just one more chance I would steal all the paint in the world

At least the color of my broken heart...that awful shade of blue

Sunday started much better till I sat on that long wooden pew

I'm like a broken string on a kite floating away without you

Well I'm not sure how much anyone knew but those stares just may be a clue

I guess it's clear my condition is clear, it's an awful shade of blue

Chorus

At least the color of my broken heart, that awful shade of blue

That awful shade of blue
