

# I Think I Turned the Corner Today

David Potts 2016

Key of D

Well I think I turned the corner today  
Packed my bags and walked away  
Stopped loving her so it seems  
Now I only see her in my dreams

Chorus

But in my dreams she's standing there  
Pretty eyes and her long blond hair  
And in my dreams I can't walk away  
But I think I turned the corner today

Way back when we were best friends  
Night and day it would never end  
The Sun would rise and the sun would set  
Not one cross word not one regret

Chorus

But in my dreams she's standing there  
Pretty eyes and her long blond hair  
And in my dreams I can't walk away  
But I think I turned the corner today

I remember the day we parted ways  
Standing there with nothing to say  
It was gone just like it began  
With a saa --d and lonely man

Chorus x2

But in my dreams she's standing there
