

I'm Crossing Over

David Potts 2007

Key of G

Well I'm crossing over to the other side

I--I'm crossing over,

Sorry you won't be there for the ride

You made it perfectly clear

You didn't want me anywhere near

But I got online and man did I find

Love's just a mouse click away

Chorus

You said you would be on your way

Soon as I agree to pay

Everything I have is all that you want

And I can send the rest some day

Chorus

You called me just the other day

Said you had something to say

But all I could hear was screaming in my ear

Looks like nothing has changed

Chorus
